Class No. 18—Discretionary.

In this class may be found the various articles on exhibition not enumerated in our Premium List.

NOTE.—It shall be the duty of the Discretionary Committee to examine all such articles as shall be recommended to them by the judges on the vasious classes, together with those to which their attention may be directed by the numbered cards (18) on each, and also any article they may deem worthy of premium, which is not specified in our List. But in no case are they to make an award in any class unless their attention has first been called to it by the judges of said class.

All Discretionary Premiums to be referred to the Board of Managers.

Rules and Regulations for the Government of the Society.

1. Competitors at the Fair must become members of the Society, and have certificates of membership, which must be shown to the Secretary before any entries will be made.

2. Numbered cards must be attached to all articles, stock, &c, for exhibition, which will be furnished by the Secretary—being an exact copy of his entry—but the names of owners strictly excluded.

3. All animals or articles must be on the grounds on Wednesday, October 4th that they may be arranged in readiness for examination by the Judges immediately thereafter. Articles may subsequently be offered for exhibition, but in no case will premiums be awarded on the second day entries. All cards on such shall be marked second-day entries. The same article cannot be used to take two premiums.

4. Exhibitors are not to make themselves known to the Judges—who are not to be interfered with in any manner, by two disinterested persons.

6. No animal or article entered for premium can be removed until the close of the Fair, except by special permission. All stock, &c., on exhibition will be subjected to the order and direction of the board of Managers.

7. In any instance where the Judges are not able to determine between any animals or articles in competition, they may award premiums to each animal or article.

8. Hay and straw for stock will be furnished, free of charge, and grain at cost price; and an abundance of water will be on the ground for all purposes.

9. No premiums will be paid until twenty days after the Fair, and all premiums sent for will be paid only on a written order to the Treasurer (Joseph C. Wilson,) to be retained by him as a voucher for the same.

10 A committee will direct us to the location of any article which may be placed on exhibition.

11. The Board of Managers will spare no pains to accommodate competitors in every class; every precaution will be taken for the safety of all articles on exhibition; but they will in no case be liable for any loss or damage that may occur.

INSTRUCTIONS TO JUDGES.

1. All Judges are required to report themselves at the stand at 10 o'clock on Wednesday morning, October 4th, or otherwise vacancies will be immediately filled up by the Board. They will make full and detailed reports, and return them to the Secretary, before 1 o'clock on Thursday. Judges must confine themselves to the articles in the several departments, as set forth in the Premium List, when a worthy object is presented not properly belonging to their several departments; they are to refer it to the Discretionary Committee.

2. Judges will not award first rate premiums upon indifferent objects with little or no competition; but may award premiums of a lower grade or no premium, as they shall deem proper.

3. All Judges who are not members shall have tickets free of charge for dinner for one day.

4. Judges are requested to make a note of every article that comes before them, as the board wish to make a full report, with the names of owners attached.

5. Judges will not award premiums upon articles or animals not enumerated in their own particular class; but such of the same as they think worthy, they will recommend to the attention of the Discretionary Committee.

6. If the article on exhibition has not a numbered card attached, the Judges shall take notice of the same.

7. Judges will in no case award a premium on any article the card on which is marked second-day entry.

8. No person will be permitted to act as Judge, if he or she be competing for a premium in the same class, or is in any way interested.

9. Judges will permit no persons to be present, or interfere in any way with them in their examinations.

GENERAL RULES.

1. Certificates of membership (one dollar each) give all the privileges for the year, including the succeeding election, and admit to the Fair Grounds during the exhibition the head of families and children residing at home, except males over 21 years of age.—Tickets for single admission 25 cents.

2. The Board of Managers (which includes the officers) will be present on the Grounds, and will be pleased to give any information to competitors or others who may desire it.

3. All articles in the manufacturing or mechanical Department, must be made within a period of one year previous to the Fair.

4. Premiums shall be awarded without regard to the County or State in which the owner lives.

5. Any person who may bring intoxicating liquors on the Fair Grounds, either to drink himself, sell or give away, shall be expelled from the enclosure, and not be permitted to enter again.

6. Each horse or colt brought upon the grounds (except those engaged in hauling articles to the Fair which shall not remain) will be taxed 15 cents each; a pair of horses (one owner) in harness or otherwise, 25 cents.

7. All carriages, wagons, or vehicles of any kind (except those coming under the foregoing provisions) must be entered for competition, and have a numbered card placed thereon; none others will be admitted.

8. All persons having horses to exhibit or train in the ring, are required to show their certificate of membership, both at the stock gate and entrance to the ring.

9. The managers will have an auctioneer to sell any animals or articles exhibited which the owners may wish to dispose of on the third day of the Fair.

10. The Secretary of the Society (D. L. Imbrie,) will receive entries for two weeks previous to the Fair, and would earnestly request all who can to make application before that time, as it will prevent confusion and insure a more extended accommodation.

Attest:

In presenting the foregoing List of Premiums, the Board would invite an attentive and careful perusal, feeling that in variety and extent it is not surpassed, if equalled, by that of any other County Society in our State, the amount of Premiums offered ($1000) being higher than that of any previous year. We offer in many instances three grades of premiums, (1st, 2d, and 3d best) on the same article, thereby increasing the chances for a premium, and affording a more extended competition. Taking these facts into consideration, the Board would cordially invite all to compete, hoping that we may have an exhibition that will prove alike creditable to our Association, and to the Agricultural interest of our County.

D. L. IMBRIE Sec'y.

Ants in Gardens.

We have known these pests to be so numerous and destructive as nearly to ruin a whole garden. They completely honey-comb the walks, and become annoying beyond measure.—A French gardener, named Garnier, announces that he has discovered a remedy for them, which is simply to place saucers near the plabes invested with the ants, containing a mixture of sugar and water, with a fair sprinkling of arsenic—a tenth of the weight of the sugar and water. They are very fond of sweetened water, and will help themselves freely; but in a little while they are seen staggering away, some falling down dead, and others again (fresh comers) dragging their dead comrades away. So effectual was this dose that the entire colony disappeared the following day.

Cure for Warts on Colts.

Take corrosive sublimate, and red precipitate, powdered, mix them in equal parts, and it will cure the most of warts on cattle or horres, if the wart is large and loose, tie a fine cord around it, close to the skin, and in a short time the wart will come off; then apply the powder until the wart is eaten down below the skin; then wash off rub on a little sweet oil, and it will soon heal over. If the wart is dry scratch it with the point of a knife until it bleeds; then put on the powder; it will make a hard dry scab; pick off the scab and put on the powder again, until all is eaten away.

Clover Hay for Sheep.

A correspondent remarks that when he has well-cured clover hay, cut in blossom, he never feeds his sheep grain, unless it be to the ewes about lambing time, and they come out in spring healthy and in excellent condition. With clover, if any grain is used, feed oats; with timothy, corn is better. With plenty of well cured hay, cut in blossom, sheep need no turnips nor potatoes to keep them in good condition.

The Ocean Bottom.

Mr. Green, the famous diver, tells singular stories of his adventures when making search in the deep waters of the ocean. He gives some new sketches of what he saw at the "Silver Bank" near Hayti:

The banks of the coral, on which my divings were made, are about forty miles in length, and from ten to twenty in breadth. On this bank of coral is presented to the diver one of the most beautiful and sublime scenes the eye ever beheld. The water varies from ten to one hundred feet in depth, and is so clear that the diver can see from two to three hundred feet, when submerged, with but little obstruction to the sight.

The bottom of the ocean, in many places is as smooth as a marble floor, in others it is studded with coral columns from ten to one hundred feet in diameter. The tops of those more lofty support a myriad of pyramidal pendants; each forming a myriad more, giving the reality to the imaginary abode of some water nymph.—In other places the pendants form arch after arch, and as the diver stands on the bottom of the ocean and gazes through into the deep winding avenue, he finds that they fill him with as sacred an awe as if he were in some old cathedral, which had long been buried beneath old ocean's wave.—Here and there the coral extends even to the surface of the waves, as if the loftiest columns were towers belonging to those stately temples which are now in ruins.

There were countless varieties of diminutive trees, shrubs, and plants in every crevice of the corals where water had deposited the earth. They were all of a faint hue, owing to the pale light they received, although of every shade, and entirely different from plants that I am familiar with that vegetate upon dry land. One in particular attracted my attention; it resembled a sea fan of immense size, of variegated colors and the most brilliant hue. The fish which inhabit these "Silver Banks" I found as different in kind as the scenery was varied. They [illegible] to the voracious shark.

Some had heads like squirrels, others like cats and dogs, one of small size resembling the bull terrier. Some darted through the water like hectors, while others could scarcely be seen to move. To enumerate and explain all the various kinds of fish I beheld while diving on these banks would, were I enough of a naturalist to do so, require more than my limit would allow; for I am convinced most of the kinds of fish which inhabit the tropical seas can be found there. The sun fish, sawfish, white shark, blue or shovel-nose shark, were often seen.

There were also fish that resembled plants, and remained as fixed in their position as a shrub, the only power they possessed was to open and shut when in danger. Some of them resembled the rose when in bloom, and were of all hues. There were the ribbed fish, from four to five inches to three feet in length; their eyes are very large, and protrude like those of a frog.

Another fish was spotted like a leopard, from three to ten feet in length. They build their houses like beavers, in which they spawn, and the male or female watches the egg till it hatches. I saw many specimens of the green turtle, some five feet long which I should think would weigh from 400 to 500 pounds.

☞ A pew in a Congregational meeting-house is thus advertised for sale in the Amherst, Massachusetts, *Express*: "A pew in the meeting-house of the first parish in Amherst is for sale. The man that owns the pew owns the right or space just as long and wide as the pew is from the bottom of the meeting-house to the roof, and he can go as much higher as he can get. If a man will buy my pew and sit in it on Sundays, and repent and be a good man, he will go to heaven, and my pew is as good a place to start from as any pew in the meeting-house."

A LIVELY PIC-NIC.—At a spiritual pic-nic near Weehawken, New York, the other day, seven women were ravished, two men killed, five wounded, and fourteen robbed, not only of their watches and portemonaies, but of their clothes, so that they were compelled to hide in the woods all night.

☞ The Grand Jury of Andrew county, Missouri, have indicted over three hundred persons in that county for treason, under the impression that treason can be punished by State as well as United States Courts.

☞ The number of Yale College graduates in the Union army and navy, was five hundred and sixty-five; of non-graduates, one hundred and seventy-two.

☞ Out of the one million five hundred thousand names on the army rolls, eighty per cent. are native born Americans.

State Convention.

A State Convention will be held at Harrisburg on THURSDAY, THE 17th AUGUST, 1865, at 12 o'clock M., for the purpose of putting in nomination a State ticket, to be supported by the friends of the Union at the coming October election.

The earnest and zealous labors of a loyal people secured the great victory in 1864, and made the war, which our enemies denounced as a failure a glorious success in 1865.

Our flag has been maintained—our enemies destroyed—our Government preserved, and peace re-established. Let every friend who aided in this result, take measures to be represented in that Convention. We must see to it that the fruits of our success are not lost to the Nation.

Business of vast importance will be presented for its consideration and every district in the State should be represented.

WIEN FORNEY, }

GOVERNMENT is concentrating a large force of troops along the line of the Rio Grande—some 50,000 men, according to the latest reports from that quarter, and it may be doubted whether an army of that strength is necessary to preserve tranquility in Texas. Its presence is construed by some as an indication of an intended demonstration against Maximilian, but it is most probably designed, apart from its police duties, as a corps of observation and a safe-guard for the frontier at Juarez. Whatever may be the disposition of the Administration toward the Mexican Emperor, or its views of the Monroe doctrine, we see no indication at present in its movements of a purpose of immediate hostilities.—The disbandment of our armies, and the recent order to Sheridan directing him to muster out at his discretion such troops as he may consider unnecessary for his Department, coupled with the amicable character of the correspondence of the State Department with the French Government, point to a passive acquiescence for a time at least, in the rule of the present Emperor.

What is popularly known as the Monroe dictrine had its origin in the wars for independence of the Spanish American Colonies, and was promulgated by President Monroe in his seventh annual Message, Dec. 2, 1823:—

"We owe it to candor and the amicable relations existing between the United States and those powers," says he, "to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety.

"With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the governments who have declared their independence, and maintained it, and whose independence we have, on great consideration, and on just principles acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destiny, by any European power, in any other light than as a manifestation of an unfriendly disposition toward the United States."

The doctrine thus enunciated has recently been emphatically endorsed by both political parties and by a unanimous resolution of Congress, and if President Johnson desires to conform to public sentiment as thus expressed, it is difficult to perceive how he is to avoid ultimately remonstrating against the abolition of republicanism in Mexico, for the benefit of a scion of European royalty. And a remonstrance must be backed of course by the armed forces of the Union.

And yet all must admit that Mexican republicanism has thus far been a failure. Whether owing to the want of education amongst the masses, or their mongrel blood, or the debased form of Catholicity which dominates in their religion, that people have enjoyed but few of the blessings connected with our idea of self-government. Scarcely a year has passed since the Republic was declared, without insurrection, bloodshed and civil war. In scarcely any portion of their country has their government been able to guarantee security to the lives or property of their own citizens, or foreigners who go amongst them.—Brigands plunder almost unmolested upon the most frequented highways, and the assassin nightly plies his knife in the streets of their Capitol. Their mines, once productive, have almost utterly failed, and industry languishes in all its branches. The savage tribes of the Camanches and Navajis scourge the frontier provinces, and place their towns under contribution, and the government is impotent for their defence. In view of the condition of the country and its history, there may well be those who will doubt whether a government stronger than the Mexican constitution provides, is not necessary to bring order out of this chaos, and subject the noxious, worthless or rebellious elements of Mexican society to the law, and whether the bayonets that support it, whether French or domestic, are not serving God's purpose and the interests of civilization and humanity.

History of the Pennsylvania Reserves.

The History of the Pennsylvania Reserves, by J. R. Sypher, of Lancaster, Pa., has been published and is now being delivered to subscribers. Though sometimes very extravagant in style, we doubt not it is as faithful a record of the services of this gallant corps, from its organization to its departure from the field, as can possibly be presented to the public at present. Amongst others, we find honorably mentioned Surgeon Stanton, Capts. Cuthbertson, Winans, Adams and Miller, and Lieut. Chamberlin, of this county. The members of Co. H, of the 9th, will recognize in the following a description of perhaps the fiercest conflict in which that regiment ever participated. It occurred at Charles City Cross Roads:

"Just at this moment the 9th regiment returned from the left to its original position near Cooper's Battery; the men were told that Cooper's Battery was lost; in one voice they demanded to be led to the charge to re-capture it. Parts of other regiments formed in line with the 9th, and rushed from the woods upon the battery at the instant the enemy was turning the guns upon them; a tremendous cheer and an irresistable charge, and immediately the undaunted Pennsylvanians were in the very midst of carnage and grim terror, turmoil or death around and, among the guns and caissons; the Reserves had now determined the battery should be recaptured; the Confederates were equally bent on not relinquishing its possession. Never did men fight with more death-courting fury. On the right Randall's battery was belching forth its terrible charges of grape and canister; the enemy could spare no reinforcements from that quarter; at the price of life the gallant Simmons had broken the power of the enemy on the left; the centre now struggled alone. Too severe the storm, too fruitful of death the conflict, for mortal to endure! The rebels broke and ran; with shouts of victory and insatiable wrath the men pursued them, across the field, through the woods, and into the road, "going straight to Richmond," shooting them, bayoneting them, clubbing them and running them down, till the officers, seizing the color-bearers, forced the victorious heroes to return to their original lines, but not until William J. Gallagher, a private in Co. F, who killed the rebel color-bearer, had seized the standard of the Tenth Alabama Regiment, and carried it from the field.—The regiment was met by Gen. M'Call and congratulated for its brilliant achievement. The General received from Private Gallagher the rebel colors, and sent them to the rear."

Unless our memory errs, Private Gallagher belonged to Co. H; Sergt. Blanchard was the color-bearer who was bearing the flag of the Ninth "straight on to Richmond," and Capt. Cuthbertson, who commanded at the time, the officer who threw his arms around him and halted his advance *vi et armis*.

We quote the following tribute to the gallantry of some of our Beaver county boys, from the account of the battle of Antietam:

"A most singular fatality fell upon the color-bearers of this regiment (the Ninth.) Sergeant Henry W. Blanchard, who had carried the regimental colors through all the storms of battle in which the regiment fought, was a most remarkable man. Born in Massachusetts in 1832, he was about thirty years old. He had the most complete control of his feelings; in the fiercest hour of battle was always perfectly calm, never shouted, cheered or became enthusiastic, but steadily bore up his flag. At the battle of New Market Cross Roads, where every color-bearer in the Division was either killed or wounded, Sergeant Blanchard received a wound in the arm; he retired a few minutes to have his wound bandaged, and then returned to his place. At Antietam he was so severely wounded that the flag fell from his hands, and he was unable to raise it; Walter Beatty, a private, seized the banner to bear it aloft, and almost immediately fell dead pierced by rebel bullets; another private, Robert Lemmon, took the flag from the hands of his fallen comrade, a companion calling out to him, "don't touch it, Bob, or they'll kill you;" the brave boy, however, bore up the banner, and in less than a minute lay dead upon the ground. The colors were then taken up, by Edward Doran, a little Irishman, who lying upon his back held up the flag until the end of the battle, and for his gallantry was made a non-commissioned officer upon the field."

As is inevitably the case when a historian travels outside of official sources of information to enter into details derived from personal narrative, Mr. Sypher's descriptions are sometimes overwrought, and the deeds of particular officers or regiments receive an undue prominence, whilst those of others who fought equally well are passed unnoticed, his attention having not been directed to them. He is so much in love with his subject that at some points his history degenerates with panegyric. It is, however, a very readable volume, and will be highly prized by the survivors of the old Reserves.

Political.

Col. A. K. M'Clure states through the Franklin *Repository* that he is not a candidate for the Gubernatorial nomination.

The election for members of Congress in Tennessee last week resulted in favor of Maynard, in the Knoxville, Stokes in the Chattanooga, and Cooper in the Shelbyville district, all administration candidates. Campbell and Thomas, opposition, in the Nashville and Clarksville district are elected. The other districts have probably been carried by the Democracy.

The Senatorial conferees of the Lawrence, Armstrong and Butler districts met in Pittsburg on the 3d inst., and after the 136th ballot adjourned without making a nomination. They meet again in Butler on the 24th inst.

The election in Kentucky, as far as heard from, has resulted in the triumph of the Unionists.

MEADVILLE, Aug. 2, 1865.

EDITORS ARGUS—*Dear Sirs:* It occurs to me while waiting for tea that a few lines may be penned which will interest your readers, at least the teachers of our county. The immediate object of my visit to this thriving and rapidly increasing town, both in numbers and wealth, is the assembling here of the State Teachers' Association.

This body met yesterday in Centre [illegible] addresses of welcome, discussion of the relation of the Clergy to the cause of Popular Education.—The general drift of the remarks was, that they should lend it their influence, seeking to encourage teachers and scholars, and assuring them of their liveliest interest in their self-denying labors.

Prof. Clark, of Central New York, interspersed these exercises with charming songs, one entitled "Children of the Battle Field," referring to the three children of Sergeant Hunsinger, of Gettysburg noteriety, and nearly all relating to the war or incidents thereof. The Teachers are eminently loyal, judging, from their demonstrations here as well as their record on the Battle-Field.

The Evening entertainment was an address by Rev. Thos K. Beecher, of Elmira, N. Y.—not Henry Ward, but a worthy brother, the youngest of this celebrated and talented family.—His subject was "The Duty of the State to educate its citizens," and was handled as a Beecher only can handle a popular subject. He was frequently and heartily cheered, though he claimed his address was crude, as he was called on twenty-four hours earlier than he anticipated.

This morning a report was read by by J. H. Shumaker, of Juniata county, on "The Relation of the Common School to the Higher Institutions of Learning." It was able and called forth much discussion. Mr. Beecher, Dr. Burrows, editor of the State Journal of Education, Prof. Wickersham, of the State Normal School, Millersburg, Dr. Loomis, President of Allegheny College, with many others discussed this report. It really waked up the association, without which it would have been in danger of night-mare.—The session is proving a pleasant and profitable one. I notice among the attendants, Mr. Reed, our efficient County Superintendent, and lady. A further report may be given in the future.

Yours, truly,
R. T. TAYLOR.

☞ It is said that seventy-five thousand Red-skins are to be present at a council which is to assemble at Fort Gibson, on the 1st of September, to settle upon their future relations with the Government, and to give new and positive assurances of good conduct and loyalty. It is hoped these individuals will bring haversacks well filled, and that the council will adjourn before they are quite empty; or woe be to the country thro' which they pass on their way homewards.

☞ The London *Times*, speaking of the trial of the conspirators, says,—"Against the severity of the sentences not a word can be said. The lives of Booth and his fellow-conspirators were most justly forfeited. Human judges can recognize no excuse for assassination. If tyrannicide can ever be justified as an appeal to a higher law, it must be justified before a higher tribunal than any earthly judgment seat.

RANDOM PAPERS.

BY ROBERT RANDOM.

NUMBER FIVE.

Reconstruction is the cant word of politicians to express the idea of that readjustment of civil society, which was so completely broken up by our terrible conflict. And in this question of reconstruction every one must have his "dip"—some deeper and some more shallow. So far the discussion has turned principally upon the question of the right of suffrage to the colored inhabitants of the States lately in rebellion. There seems to be but little difference of opininion upon the justice of the proposition to allow them to vote. It is we believe pretty generally admitted that so far as the right of the colored soldiers, to be allowed to participate in this government, is concerned, or rather so far as our duty to him extends, on the score of gratitude, there is but little excuse for withholding from him this boon. But those who are not yet quite ready to confer the privileges of the election franchise upon the Freedmen are held back, by arguments addressed to the feasibility of the thing. It is very seldom that a question has not at least two sides to it, and this question of negro suffrage may be considered as having several sides. First then is the side of the Radical who believes that nothing short of a complete and immediate extension of the right of suffrage to all persons of every color will begin to answer the purpose.—Of those who embrace the views, seen on this side of the question, Mr. Wendell Phillips may be taken as the chief expositor. The argument may be stated, in brief, as 1st, The right of suffrage is inherent in man, to deprive him of it under any pretense is an act of tyranny. 2d, all governments should be based on the consent of the governed; unless you allow the Freedman the right of suffrage, he can not be said to be governed by his consent, and hence the government, in which this right is denied to any class cannot be just. 3d, As it is a fundamental maxim of Democracy that all power belongs of right to the people, the more the right of suffrage is extended, the greater is the security of the political power of the people.

From these general principles, with a few flourishes of rhetoric, the Radical orator has but little difficulty in persuding those who sympathise with him that absolute, unconditional, universal suffrage is the great panacea for all the ills that governments are heir to.

Then there is another of side this question, the exact opposite of this, held by those gentlemen who, during the late conflict, were for peace at any price, who thought that the South had more just cause of complaint than nothing in this question of the right of the negroes to vote but danger, and disaster in their view. To allow them this privilege would result in ruin to the country. The argument of these persons may be stated somehow thus:

1st, This government is a white man's government, established for the sole use and behoof of white men. 2d. The negro race is greatly inferior to the white in every way, and to admit them to terms of equality with the superior race, would only tend to lower the white race without elevating the blacks. 3d, The South, which it is all-important to conciliate, would never consent to such an arrangement, and we should soon have another conflict, as fierce as that we have just succeeded in quelling.

So reason and conclude these gentlemen, who have been sometimes styled Copperheads. It will be easily seen that between these two classes there exists a wide difference of opinion; and the great majority of the people seem to vibrate between these two opposite rallying points. Our friends the Radicals being at one extremity of the pole of public opinion and Messrs. the late Copperheads, at the other. The true point of safe walking of course, as things now go, is not far from the Equator, a little however inclining towards the North Pole—between the two extremities we have indicated, may also be found the different shades of opinion which coincide with the various sides taken upon this question. For instance, we have bordering upon the Radical the more conservative Republican sentiment, which of course is in favor of negro suffrage, but wants it qualified by making it contingent upon the amount of intelligence and education possessed by the recipients. Then there is your very conservative Republican, who don't go for giving the right of suffrage for a term of years. Next there is your very extremely conservative Republican, who is not very far from the milder of the Democrats. Then you out-spoken Democrat, and finally the regular Copperhead, full of venom and treason.

I often ask myself what is to be the upshot of all this mighty pother and disturbance, that is now taking place in the political world, and, after looking at the matter in the light of past experience, I have come to the following conclusion, which I here submit for the benefit of politicians generally:

The status of the negro in this Union, is like all other matters, one of progression, as certain as the precession of the Equinoxes. At no very remote period of history, the point of the greatest popular attraction was located somewhere near the South Pole. Since that time it has been moving northward with great rapidity, and at the present time is, as I said before, not very few from Equatorial regions—a little towards the North.

Those politicians who desire to observe the signs of the times, should observe this—not forgetting, however, that it is constantly moving to the North, and before a very great while may be found not very far from the Radical stand-point; at least all the indications point that way.

Let him that reads understand.

The Miseries of Rich Men.

William B. Astor rates his income at four thousand three hundred and and thirty dollars per diem. Sleeping or walking, the gentleman finds a three dollar bill dropping into his hat every minute of the twenty-four hours. He cannot sit down to talk to his physician without having a little more wealth, if not health; he cannot unburden his mind for ten minutes without feeling the burden increasing in his pocket, and he cannot walk Broadway, however the weather may be, without meeting a shower of money. At every turn cash stares him in the face in the most insolent manner. Banks fling their dividends at his head; ruthless financiers beat him with coupons; unpitying and soulless corporations dump their filthy lucre at his door step, and contemptous bill stickers plaster his house with greenbacks. One might inquire what the fellow has done to merit this treatment, and the only charge that can be brought is that he was a rich man's son, and therefore must suffer.—*Rochester Democrat.*

☞ The Nashville *Times* regards the appointment of Gen. Carl Shurz to an important field of observation in the South, in connection with reconstruction, as "very significant."—The General, as is well known, is a German radical, and believes in the principles of progress, "and the great truths of humanity, equal rights, and universal republicanism." The fact that President Johnson has conferred an important appointment on such a man, is not less encouraging to those Democrats who undertook to Tylerize the President, than that Preston King, one of the earliest anti-slavery men, and always a radical of the reasonable class, is one of his warmest and best friends and most trusted advisors.

MURDER AT BEDFORD.—Jacob Crouse, late Deputy Provost Marshal of Bedford county, was murdered at Bedford on the 1st inst., by a deserter named Reed, who had but recently returned from Canada. Some difficulty occurred between them a few days previous, and on the morning above mentioned they met on the streets, when Reed instantly drew a revolver. Crouse attempted to pick up a stone to defend himself, and while in a stooping position Reed fired, the ball taking effect in Mr. Crouse's side, killing him instantly. A brother of Reed was also present and took a minor part in the affray. Both men were arrested and lodged in jail.

☞ Geffrard was elected President of Hayti for five years; at the end of that period the Senate re elected him for life, according to the constitution of the people. He had done more to elevate and civilize the nation than any ruler that had preceded him. The government of the country is a military despotism, similar to that of Napoleon when First Consul, and the President, consequently, has almost unlimited power. Therefore, when the people want a new President they have to get up a revolution. The present revolution has been in contemplation for some years.

☞ The notorious forger, Colonel J. Buchanan Crosse, whose exploits in forgery, and his desperate efforts to escape from the Philadelphia Penitentiary by means of false papers, caused so much excitement some years ago, will be discharged next month, his term of five years expiring on the 18th. He has been employed in making cane-seat chairs since his confinement.

☞ The population of Newborn, N. C., which was 10,000 before the war, is now 30,000. Three new daily papers are to be started this fall. It is now the largest city in the state.

☞ Chang and Eng, the Siamese twins, now old north North Carolina farmers, are soon coming North to exhibit in public. They are said to be strong Union men.

☞ Mr. Richard Hildreth, American Consul at Trieste, Austria, and the author of different historical and other literary works, died at Florence, Italy, on the 11th of July.

LOCAL and MISCELLANEOUS

We are indebted to Hon. Tho's Cochran for a copy of his eloquent address to the citizens of M'Sherrystown, York county, delivered on the 4th inst.

In our notice of a purse and breast-pin lost on the C. & P. R. R. a few weeks, we erroneously stated that the name of the owner, Mrs. Pierce, was on the breast-pin. The name was on the envelope containing it.

We have received from the publishers, Harper's Monthly for August and Blackwood's Magazine for July. Both are good numbers.

We invite the attention of the Town Council to the condition of the Rochdale Cemetery. It has become a perfect wilderness of weeds and shrubbery, and should not longer be neglected. If it is not their province to take care of it, we trust that it will be restored to a decent state by private subscription.

HORRIBLE OUTRAGE.—On Tuesday morning, 1st inst., it appears that a German girl named Mary Cookle, about twelve years of age, while in company with two other small girls picking berries in Winebiddle's woods, East Liberty, fell into the hands of a fiend in human shape, who outraged her in the most horrible manner.

☞ Our attention has been called to the fact that in publishing the proceedings of the recent Union county convention the first ballots for Treasurer and Trustees of Academy were incorrectly given. For the former the four votes were polled for A. G. Cleary, which were omitted in our report, and the vote for Rev. D. H. Reed for the latter, as returned to the Secretary to us, was 56 instead of as we published it. We cheerfully make the correction.

PROMOTION.—Surgeon D. Stanton, U. S. V., Assistant Medical Director of Department of the Ohio, has been promoted to be Lieutenant Colonel, by brevet, for faithful and meritorious service during the war. Col. S. entered the service from this county early in the summer of 1861, as Surgeon of the 1st Penna. Cavalry; was promoted in 1862, and ordered to Columbus, Ohio, where he had superintendence of the U. S. Hospital, until appointed Assistant Medical Director, with headquarters in Cincinnati, which he recently established headquarters in the city of Detroit, Michigan.

The End of the 7-30s.

The last bond of the third series of Seven Thirty Loan has been taken. Until the next Congress it is impossible to expect the issue of any new Government bonds. The eminent skill of Jay Cooke as a financier is shown by the manner in which he has managed the great loans which were intrusted to his agency by the Government. Out of eight hundred and forty million dollars of the Seven Thirties he has disposed of seven hundred millions in a very short space of time.

DISAPPOINTED.—The numerous friends of our highly esteemed fellow-townsman, Alexander Murdoch, Esq., will be gratified to learn that he has been reappointed Marshal for the Western District of Pennsylvania. During the past four years he has held the position, and discharged its duties with a promptness and fidelity that have won the most unbounded confidence of the public. No man more fully lives up to the test instituted by Washington, namely, honesty and capacity, than Mr. Murdoch, and the community is always to be congratulated when such men are elevated to positions of trust and responsibility.—*Washington Reporter.*

NEWCKLY NURSERIES.—A visit to the grounds of T. L. Shields & Co., at Newworth Station, twelve miles west of Pittsburg, on Fort Wayne and Chicago Railroad, will be amply repaid, and will enable the visitor to see the great variety of trees, vines, evergreens and plants in cultivation. This firm employs every appliance which large experience may deem requisite in the preparation of the soil, and the improved methods of cultivation. The extensive orchards of Shields & Co., containing over one thousand peach, two thousand apple, cherry, plum etc., and the vineyards filled with the choicest grapes, such as Delaware, Concord, Diana, Iona, &c., &c., enable the proprietors to procure abundance of scions and cuttings of the varieties best suited for this Western locality; and persons ordering from the Newickley Nurseries may rest assured that they are buying from men of integrity and long experience.—*Presbyterian Banner.*

BEAVER ACADEMY.—We call the attention of our readers to the advertisement of the Beaver Academy in another column. Prof. Ganz, of New Brighton, has been elected Principal of the Academy, and has accepted the position. He was Assistant Principal last year, and won for himself here, as elsewhere, a fine reputation as a teacher. Prof. Agnew having retired, Prof. Ganz now assumes entire control of the institution. The selection is an excellent one. Prof. Ganz has the reputation of being one of the best scholars ever graduated from Washington College. He was for fourteen years Principal of the New Castle schools, and when he retired it was with the universal regret of pupils and people. Under his management we expect Beaver Academy to take a higher stand than ever before, and enjoy the success that its advantages deserve.

ETNA INSURANCE COMPANY.—We would call the attention of our readers to the advertisement of the "Etna Insurance Company," in another column. This is one of the very best companies in the United States.—Their assets on the first of January last after paying all indebtedness was nearly three million dollars. Losses paid by this company in forty-six years amount to the enormous sum of seventeen millions five hundred thousand dollars. This is sufficient guaranty of the reliability of the company. Every property-holder now should have his property insured, and in a company where in case of loss he is sure of lifting his insurance. The Etna Insurance Company is just the company we would recommend.—Charles B. Hurst, Esq., of Rochester, is the agent for this county.

Ayer's SARSAPARILLA.

For the speedy cure of all Diseases arising from Impurity of the Blood, such as

Scrofula and Scrofulous Diseases,

From Rev. Father Boudreaux, Catholic Priest, Assumption, Lafourche, La.

"I have sold large quantities of your SARSAPARILLA, and have no hesitation in saying that it is superior to any other preparation of the kind in the market. Many of my friends have used it for Scrofula, and all concur in pronouncing it the best remedy they have ever taken. As a blood purifier, it is unequalled by any other we are acquainted with. Its effects in our community are wonderful. Many who have been long afflicted with Scrofulous complaints, which had become chronic, have been entirely cured by it. We have no medicine about us in our community that can equal it."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin,

From Rev. Robt. Street, Missionary, England.

"I only do my duty to you and the public when I add my testimony to that of others, to the remarkable virtues of your SARSAPARILLA. My daughter, aged ten, had an affection of the skin on her eyes, and face for years, which completely closed one of her eyes, and baffled the skill of the best physicians we have in this country. She has been well for some months past."

From Mrs. Jane E. Hicks, Wife of the Rev. Dr. Hicks, Pastor of the Methodist Episcopal Church, Lawrenceburgh, Indiana.

"My daughter has been afflicted with a severe scrofulous eruption, which baffled the skill of the best physicians in this city. Nothing afforded her relief, until we procured and administered to her AYER'S SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the firm of Gage, Murray & Co., manufacturers of Paper in Nashua, N. H.

"I had for several years been troubled with an eruption on my face, which grew worse and worse, until it disfigured my features, and became a very serious affliction. I tried almost every remedy I could of both advice and medicine, but without relief whatever, until I took your SARSAPARILLA. Within little more than a week after I commenced using it, the humor entirely ceased to run, the skin began to form under the scabs, and in a short time my face was entirely free from sores, and has continued so ever since. I am now using the SARSAPARILLA for my children, and it seems to work like a charm in purifying their blood. I know of no medicine equal to it for children, and no other that I can recommend with so much confidence."

WASHER, WRINGER and STARCHER Combined! Silver and Bronze Medals, Diplomas, Certificates, Premiums, and Testimonials, have been received from various sources, both Public and Private.

Self-Adjusting and Adjustable! The only Wringer with the Patent Cog-Wheel Regulator, for turning both rolls together and which positively prevents the rolls from breaking or twisting on the shaft. It is not only a perfect Wringer, but the Cog-wheels give it a power which renders it a most Excellent Washer pressing and separating, as it does, the dirt with the water from the clothes, leaving them dryer, whiter, and smoother than when "wrung" by hand. The water can be pressed from large and small articles, easier, quicker, and more thoroughly than by the ordinary, old-fashioned back-breaking, wrist-straining, and clothes destroying process.—The Cog-wheels prevent all "wear and tear" of clothes by the friction of the rolls or breaking of stitches by twisting.

Without Cog-wheels, the whole strain of forcing the cloth through the Machine is put upon the lower roll, and the cloth is made to act in the place of Cog-wheels, to drive the upper roll, causing a much greater strain upon the lower roll than when Cog-wheels, with our Patent Regulator, are used, besides the extra strain upon the cloth. A Good Canvasser wanted in every town. Liberal inducements offered, and exclusive sale guaranteed.

WHEELER & WILSON'S
SEWING MACHINES.

The Best, Most Reliable Sewing Machine Now in Use!

These Machines make the lock-stich alike on both sides, and use less than half the thread and silks that the single or double thread-loop-stitch Machines do. It will Stitch, Hem, Fell, Quilt, Tuck, Plait, Gather, Cord, Braid, etc., all without previous basting; and are better adapted than any other Sewing Machine in use to the frequent changes and great variety of sewing required in a family; or they will sew from one to twenty thicknesses of Marseilles without stopping, and make every stitch perfect; or from the finest gauze to the heaviest beaver cloth, without changing the feed needle or tension, or making any adjustment of machine whatever!

It has the following advantages over all other machines:

Far greater variety of work; beauty and excellence of stitch; speed and quietness of motion; simplicity of construction; ease and management; elegance of design and finish.

These are peculiar facts, and will go far to determine the choice of an intelligent buyer.

THE PITTSBURGH COMMERCIAL.

Published Daily by
The Pittsburgh Newspaper and Printing Company.

One of the Largest and Most Widely Circulated Papers in the State. Gives the Earliest and Fullest Intelligence.

Prospectus for the New Year.

On assuming control of the *Commercial,* at the commencement of the year, the conductors announced their DETERMINATION to infuse a *new life and vigor* into its columns which should render the paper MORE THAN EVER ACCEPTABLE TO THE READER.

The Rapid Increase in Circulation, flattering notices of our contemporaries, and Congratulatory Letters from every quarter, assure us that our efforts have not been unsuccessful.

The *Commercial* HAS GROWN DAILY in public favor until it now ranks among the LEADING JOURNALS in the country.

In order to keep pace with the demands of the reading public, and at the same time meet the increasing pressure on our advertising columns, we some months since INCREASED THE DIMENSIONS OF THE PAPER TO THE EXTENT OF FOUR COLUMNS.

Among the leading features are full a reliable
TELEGRAPHIC REPORTS;
from all the leading points of interest. It devotes special attention to
MARKET REPORTS,
including the IRON, OIL, CATTLE, LUMBER, TOBACCO, and the PITTSBURGH GENERAL MARKETS. Our
RIVER NEWS,
receives particular attention, and in this Department the *Commercial* has no rival. The
FINANCIAL AND STOCK REPORTS,
of the *Commercial* are prepared with care and will be found to be unusually full and reliable. Also, the Reports of the
LEADING MARKETS OF THE COUNTRY,
embracing reports of the DRY GOODS and WHOLESALE MARKETS, and Special Reports of OIL STOCK FINANCE AND TRADE, from day to day.

While special attention will be given to these several Departments, the *Commercial* lays claim to rank among the leading journals of the country as a medium of
GENERAL INTELLIGENCE.
Its aim is to give none but healthy reading suited to the FAMILY CIRCLE, and to be a welcome visitor to the discriminating public.
THE PULPIT
forms a peculiar feature of the *Commercial.* By giving every Saturday an ORIGINAL SERMON, prepared expressly by a Minister of the Gospel, in Pittsburgh or vicinity, (which, also, goes into the weekly,) fifty-two discourses are given in the year, by not less than twenty or thirty different Ministers, without regard to denominational distinction. This Department of the *Commercial* has attracted much attention; and arrangements are being made to increase its recognized importance and value. As a feature at once novel and instructive, it constitutes not the least of the many claims of the *Commercial* to patronage.

In politics the *Commercial* will be an undeviating supporter of the Union, and earnestly loyal to the Government; and as far as consistent with this aim, free from Partizanship.

The *Commercial* is a large folio sheet, and is published in two editions every morning, Sunday excepted.

TERMS OF DAILY: by mail, $10 per annum; City subscribers, served by carriers, $12 per annum, in advance, or, 25 cents per week, payable to the carrier. Single copies 5 cents. A discount made to Agents.

THE SATURDAY COMMERCIAL.—A large sheet, containing all the Current News, Miscellaneous, Literary, and Scientific Intelligence, and Valuable Reading for the Family, is published at $1,50, (52 issues,) per year. In Clubs of Twenty, $1.

The Money for Weekly and Daily must always accompany the order and in no instance can these terms be deviated from.

☞ Postmasters are requested to act as agents for the *Commercial.*

NEW BRIGHTON RETREAT

AN ASYLUM FOR THE RECEPTION, CURE AND TREATMENT OF MENTAL ALIENATION OR DISORDER
And Other
Nervous and Chronic Diseases,
EXCLUSIVELY FOR FEMALES.

THIS institution is now open for the reception, care, and treatment of the *independent class* of patients who are laboring under mental derangement; or other nervous and chronic disease. We make special mention of nervous and chronic diseases, from the fact that seven tenths of the female patients that are committed to our public Asylums, to be treated for disordered minds are reduced to that lamentable condition through previous physical disorder. By a well timed and judicious treatment of chronic and nervous diseases, all physical disorders, in the majority of cases may be removed; and thus the mind, having suffered through the medium of the body will, when free from the exciting physical cause, throw off the shackles that has bound it to worse than midnight darkness, and reason will, once more, resume its sway, clothed in all its primitive beauty and wonted excellence. Hence the necessity of all those, who are laboring under the predisposing or exciting causes, calculated in the end to impair the mind, to resort to an early and judicious course of remedial agents.

The Institution is a large brick building with a stone basement—four stories high, and well ventilated. It is situated on an elevated table land which commands a view of entire town—adjacent hills—groves and neighboring streams; all of which are calculated to produce favorable impressions upon the disorder ed mind.

The Institution is complete in all of its appointments. Having been tastefully fitted up at great expense, in order that it may meet the approbation and views of the most fastidious.

The water closets and bathing apparatus have been gotten up upon the most approved modern scientific principles. This department embraces not only the ordinary baths but, also, the medicated, warm air and ascending and descending *douche* for the more effectual and successful treatment of cutaneous and other scrofulous diseases.

We beg leave to say to all those who may be disposed to commit the interests of a dear wife, sister or daughter, to our charge—may be assured that no means will be spared or efforts wanting on our part to ameliorate their condition or to effect a restoration to their accustomed health and vigor of mind.

For further particulars send for a circular. All communications should be addressed to.

FRIENDS AND RELATIVES OF THE BRAVE SOLDIERS AND SAILROS,
HOLLOWAY'S PILLS
And Ointment.

ALL WHO have Friends and Relatives in the Army or Navy, should take especial care that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

COUGHS AND COLDS AFFECTING TROOPS

Will be speedily removed and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box.

SICK HEADACHES AND WANT OF APPETITE INCIDENTAL TO SOLDIERS.

These feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthful action of the liver and stomach. These organs must be relieved, if you desire to be well. The Pills, taking according to the printed instructions, will quickly a produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

WEAKNESS OR DEBILITY INDUCED BY OVER FATIGUE,

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for those Pills will correct the liver and stomach and thus remove all the acrid humors from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

VOLUNTEERS ATTENTION! INDISCRETIONS OF YOUTH.

Sores and Ulcers, Blotchings and Swellings, can with certainty be radically cured if the Pills are taken night and morning, and the ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the humors from the system and leave the Patient a vigorous and healthy man. It will require a little perseverance in bad cases to insure a lasting cure.

FOR WOUNDS EITHER OCCASIONED BY THE BAYONET, OR SABRE OR THE BULLET, SORES OR BRUISES.

To which every Soldier and Sailor are liable there are no medicines so safe, sure and convenient as Holloway's Pills and ointment. The poor wounded and almost dying sufferer might have his wounds dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all around it, then covered with a piece of linen from his knapsack, and compressed with a handkerchief. Taking night and morning 6 or 8 Pills, to cool the system and prevent inflamation.

Every Soldier's knapsack and Sailmal's chest should be provided with these valuable Remedies.

CAUTION.—None are genuine unless the words *"Holloway, New York and London,"* are discernable as a water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

*** Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicines, throughout the civilized world, in boxes at 25 cents, 62 cents and $1 each.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

BRITISH PERIODICALS,
VIZ.

THE LONDON QUARTERLY REVIEW (Conserv.)
THE EDINBURGH REVIEW (Whig.)
THE WESTMINSTER REVIEW (Radical.)
THE NORTH BRITISH REVIEW (Free-Church.)
AND
BLACKWOOD'S EDINBURGH MAGAZINE (Tory.

The American Publishers continue to reprint the above-named periodicals, but as the cost of printing has *doubled,* the price of paper nearly *trebled,* and taxes, duties, licenses, etc., largely increased, they are compelled to advance their terms as follows:

TERMS FOR 1865.

For any one of the Reviews	$4.00
For any two of the Reviews	7.00
For any three of the Reviews	10.00
For all four of the Reviews	12.00
For Blackwood's Magazine	4.00
For Blackwood and one Review	7.00
For Blackwood and any two Reviews	10.00
For Brackwood and three Reviews	13.00
For Blackwood and the four Reviews	15.00

The works will be printed on a *greatly improved quality of paper,* and while nearly all American Periodicals are either advanced in price or reduced in size—and very generally both—*we* shall continue to give faithful copies of *all* the matters contained in the original editions. Hence, our present prices will be found as cheap, for the amount of matter furnished, as those of any of the competing periodicals in this country.

Compared with the cost of the originals editions, which at the present premium on gold would be about $1800 a year, our prices ($15) are *exceedingly low.* Add to this the fact that we make our annual payments to the British Publishers for early sheets and copyright in *Gold*—$1 costing us at this time (Jan. 1865) nearly $2,50 in currency—and we trust that in the scale we have adopted we shall be entirely justified by our subscribers and the reading public.

The interest of these Periodicals to American readers is rather increased than diminished by the articles they contain on our *Civil War,* and though sometimes tinged with prejudice, they may still, considering their great ability, and the different stand-points from which they are written, be read and studied with advantage by the people of this country, of every creed and party.

THE FOUR REVIEWS for 1863.

A few copies of the above remain on hand, and will be sold at $5 for the whole four, or $2 for any one.

We also publish the

BEAVER ACADEMY.

THE Spring Term of this Institution will commence
Tuesday, April 4th, 1865,
under the charge of
Messrs. F. AGNEW & M. GANTZ,
as Associate Principals.

It is the desire, and will be the aim, to make this a thorough English, Classical and Commercial School, and to sustain the high character it has had heretofore.

To those who desire a good English education, and to those who have been of contemplate teaching in our public schools, inducement is offered from the fact that the latter of the Principals, for the last twelve years, has been Principal of New Castle Union Schools.

Both are graduates of different colleges, and well acquainted with the wants of our higher institutions. Persons, therefore, who design fitting themselves for college, will find this a suitable and desirable place.

The former having been for some time connected with the Iron City College, as a principal teacher, and the latter also being a graduate of Duff's College, advantages superior to most outside of the Commercial colleges are offered to those desiring a business education.

Our new Academy Buildings, designed expressly for the purpose, with large school-room, class rooms, society hall, etc., are now occupied, though not quite finished. It is expected, however, to have them wholly so at an early day.

For rates of tuition, &c., send for circular. Address the Principals or the undersigned.

HARPER'S NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day.—The fireside never had a more delightful companion, nor the million a more enterprising, friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

The most popular Monthly in the World.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily. It has great power in the dissemination of a love of pure literature.—TUCKERMAN'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

Dr. Hurd's MOUTH WASH, TOOTH POWDER and *TOOTHACHE DROPS* can be sent by mail, but they can probably be obtained at your Drug or Periodical Store; if they cannot, send to us for the DENTAL TREASURY, Price, One Dollar, which contains them.

NOW.

Are Dr. Hurd's Preparations Good?

The best evidences that they are is, that the firmest friends and best patrons are those who have used them longest. *Dr. Wm. B. Hurd,* an eminent Dentist of Brooklyn, Treasurer of the New York State Dentists' Association, says these preparations have been used in his private practice for years, and no leading dentists of Brooklyn or Williamsburg question their excellence, while eminent Dentists of New York recommend them as the best known to the profession. Without the aid of advertising, dealers have sold them by the gross.

The Editor of the *Brooklyn Daily Times* says: "We are happy to know that our friend, Dr. Hurd, is succeeding beyond all expectation with his MOUTH WASH and TOOTH POWDER. The great secret of his success is with the fact *that his articles are precisely as they are represented to be, as we can testify from their long use!*"

The well known P. T. Barnum writes: "I have found your TOOTH POWDER so good that my family have used it all up. *We find it the best powder for the teeth we have ever used.* I feel obliged if you will send me Another supply at the Museum at your convenience, and the bill."

But their cost is so small that every one can test the matter for himself.

☞ Beware of the ordinary Tooth Powders. Dr. Hurd's Tooth Powder contains no acid, nor alkali, nor charcoal, and polishes without wearing the enamel. Use no other.

WHAT WILL DR. HURD'S REMEDIES EFFECT?

Dr. Hurd's Mouth Wash and Tooth Powder will give young ladies that finest charm in women—a sweet breath and pearly teeth. Try them, ladies.

Dr. Hurd's Mouth Wash and Tooth Powder will cleanse the mouth from all foul exhalations, and if used in the morning, will make the breakfast taste sweeter and the day more pleasantly. Hundreds of persons testify to this. Try them, gentlemen.

Dr. Hurd's Mouth Wash and Tooth Powder are the best preparations in the world for curing *bad breath* and giving firmness to health to the gums. Hundreds of cases of *Diseased Bleeding Gums, Sore Mouth,* etc., etc., have been cured by Dr. Hurd's aromatic wash.

Dr. Hurd's Mouth Wash and Tooth Powder give an additional charm to courtship, and make husbands more agreeable to their wives and wives to their husbands. They should be used by every person having

ARTIFICIAL TEETH

which are liable to impart a taint to the breath.

Dr. Hurd's Toothache Drops cure Toothache arising from exposed nerves, and are the best friends that parents can have in the house to save their children from torture and themselves from loss of sleep and sympathetic sufferings.

Farmers and mechanics, you cannot afford to neglect your teeth. For a trifling sum you can now get preservatives than all the Rothschild or Astor can get nothing better. Remember that *Dyspepsia and Consumption of the Lungs* often originate in neglect of Teeth. Send for the *Treatise on Teeth,* and read Dr. Fitch's observations on this subject. It is not too late to arrest decay in your own teeth, and in your children's teeth.

NEURALGIA PLASTERS—Dr. Hurd's Neuralgia Non-Adhesive Plasters are the most pleasant and successful remedies ever invented for this painful disease. The patient applies one, soon becomes drowsy, falls asleep, and awakes free from pain, and no blister or other unpleasant or injurious consequences ensue. For *Earache* and *Neuralgic Headache* apply according to directions, and relief will surely follow. Nothing can be obtained equal to Dr. Hurd's Compress for Neuralgia. Try them. They are entirely a novel, curious and original preparation, and wonderfully successful. They are of two sizes, one small, for face, price 15 cents, and the other large, for application to the body, price 37 cents. *Will be mailed on receipt of price and one stamp.*

WHAT ARE THE JEWELS WORTH?

The American people are intelligent enough to appreciate preparations that contribute so much to happiness of those using them, and therefore won't them. Every mail brings us letters from ordering the Treatise on Teeth, send the Neuralgia Plasters, and not a few enclosing letters for the Mouth Wash, to be sent by mail. To these we are compelled to reply that it is impossible to send a half-pint bottle by mail. The people want these Remedies. Who will supply them?

Now is the

CHANCE FOR AGENTS.

Shrewd agents can make a small fortune in carrying these articles around to families. The Dental Treasury is the neatest article that a man or woman can carry around. Send 12 cents, one and see, or, better, a dozen, which we will sell, as samples, for $1. Agents supplied liberally with circulars. ☞ Now is the time to go into the business, to do good, and make a profit. We are spending thousands for the benefit of agents. Now England men or women! here is something nice, and a chance to take the tide at its flood. Address
